# Product Information

**Mytulin EQ** is an equine nutritional supplement, formulated to enhance immune health, support musculoskeletal performance and recovery, promote cellular longevity, and improve gut and mitochondrial function. Crafted with sustainably harvested Arctic chaga mushrooms and advanced extraction technology, it delivers potent bioactive compounds to optimize equine health, energy, and overall performance.

## Process

Our specialized extraction process isolates key bioactive compounds naturally found in chaga and enhances their bioavailability to help support overall health and wellness.

Once made bioavailable, these compounds promote synergistic cellular interactions, that help maintain normal immune system function and support the body's natural defense mechanisms against oxidative stress and age-related cellular decline.

Working in tandem with the immune system, this supplement facilitates improved mitochondrial efficiency, enhancing ATP synthesis and overall cellular energy metabolism ultimately, creating a powerful presence amongst damaged processes, restoring whole systems to optimal function.

## Benefits

- ✓ Improved stamina and energy during intense training and performance
- ✓ Improved and decreased recovery time
- ✓ Decreased stiffness, improved mobility
- ✓ Healthy gut motility and bowel movements
- ✓ Great taste and palatability
- ✓ Improved healing from injury

## Directions for Use

Horses take up to 3oz/500lbs once daily. It is recommended to start with 0.5oz/500lbs daily and increase usage as tolerated and/or needed. This product is intended for oral use only and can be taken directly or added to food. As tolerated administer the following amount once daily:

| Weight | Light/Maintenance | High Performance |
|---|---|---|
| <500 Lbs | 1 oz/Day | 3 oz/Day |
| 500-1000 Lbs | 2 oz/Day | 6 oz/Day |
| 1000-1500 Lbs | 3 oz/Day | 6 oz/Day |
| 1500-2000 Lbs | 4 oz/Day | 9 oz/Day |

## Storage

Store in a cool dry place. Refrigerate after opening. Shake gently prior to use. For best results, use within 60 days.

Warnings: Discontinue use and consult with your veterinarian if adverse effects are observed. Not for use in pregnant or breeding animals unless directed by a veterinarian. In case of accidental overdose, contact a veterinary professional immediately.
